THE GAME

House Money is a side bet offered on selected Blackjack tables, which can be played in addition to your initial wager.

THE BET

You are betting on the combination of the first two cards dealt to you.

House Money wagers must be placed on the betting circle next to your Blackjack bet box, before the initial deal commences.

PAYOUT TABLE

If your first two cards after the initial deal are one of the combinations below, you will be paid the following odds:

HAND	PAYS
Ace-King Suited	9 to 1
Straight Flush	4 to 1
Pair	3 to 1
Straight	1 to 1

If your initial two cards do not make any of the hands above, the dealer will remove the losing House Money bets.

HOUSE MONEY WAGER

If your House Money Wager wins, you have an option of immediately collecting your initial bet and winnings OR adding a portion or the full value of your House Money initial bet and win to your original Blackjack wager(s) giving you a chance to play with the House Money.

Thereafter, you play your original hand.

It's as easy as that.
