HEADS UP HOLD'EM

Is a new and exciting game where you can win up to 500 times your wager! Your cards play against the dealer's cards, where the better the poker hand, the better the payout! Heads-Up Hold'Em also features a Bad Beat bonus, so even if a big hand loses, it could still be a winner!

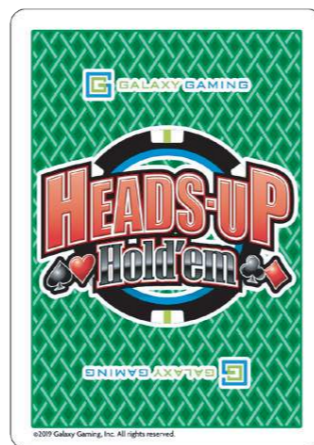

THE AIM OF THE GAME

To make the best possible five-card hand from the cards that are dealt. A round of betting occurs after each card is dealt, and the player with the best hand wins the pot after each round. The game continues until one player has won all of the chips in play.

Enhancing the player experience!

HEADS UP HOLD'EM

Five Card Poker

Players use two pocket cards and the 5-card community board to achieve a better 5-card hand than the dealer.

Primary Game

Prior to receiving their pocket cards the player must make equal Ante and Odds wagers. The player may then place a Raise wager or check as the five community cards are revealed. The players compare their final 5-card hands to the dealer and any side bets are reconciled

Ante

A required wager that must equal the Odds wager. Wins even money if the player's hand beats the dealer's hand. Ante pushes if the dealer does not qualify with a Pair.

Raise

A required wager after the Community cards are revealed or the player may fold.

Raise options:

- 3x the Ante pre-flop,
- 2x post-flop and
- 1x after the turn and river

Raise is paid even money if the player beats the dealer.

Odds/Bad Beat Bonus

A required wager that must equal the Ante wager. Wins with a Straight or better, or if the player loses with a Straight or better (Bad Beat Bonus).

Trips Plus

An optional wager that wins with Trips or better, using the player's pocket cards and the 5-card Community board.

Pocket Bonus

An optional wager that wins with a Pair or an Ace + Face (10's are not included) using only the player's two pocket cards.
